### ABOUT THE TEST

The Advanced Placement Program is designed to allow high school students to pursue college-level studies while attending high school. The three-hour five-minute AP U.S. History exam is usually given to high school students who have completed a year's study in a college-level U.S. History course. The test results are then used to determine the awarding of course credit and/or advanced course placement in college. According to the College Board, students taking this exam are called upon to demonstrate "systematic factual knowledge" and bring to bear critical, persuasive analysis of the full sweep of U.S. history. This is why we make every effort to establish and build upon context for you, rather than encouraging rote memorization of disconnected facts. The AP U.S. History Exam is divided into two sections: 1) Multiple-Choice: This section is composed of 80 multiple-choice questions designed to gauge your ability to understand and analyze U.S. history from the Colonial period to the present.

The majority of the questions, however, are based on 19th- and 20th-century history. This section tests factual knowledge, scope of preparation, and knowledge-based analytical skills. You'll have 55 minutes to complete this section, which accounts for 50 percent of your final grade.

2) Free-Response: This section is composed of three essay questions designed to measure your ability to write coherent, intelligent, well-organized essays on historical topics. The essays require you to demonstrate mastery of historical interpretation and the ability to express views and knowledge in writing. The essays may relate documents to different areas, analyze common themes of different time periods, or compare individual and group experiences which reflect socioeconomic, racial, gender, and ethnic differences. Part A consists of a mandatory 15-minute reading period, followed by 45 minutes during which you must answer a document-based question (DBQ), which changes from year to year. In Part B the student chooses to answer on two of the topics that are given. You will have 70 minutes to write these essays. The free-response section counts for 50 percent of your final grade. These topics are broken down into thirds: - Political Institutions (1/3rd) - Social and Economic Change (1/3rd) - Behavior and Public Policy, Diplomacy and International Relations, Intellectual and Cultural Development (1/3rd) The time periods covered are as follows: - Pre-Colonial through 1789 (1/6th of exam) - 1790-1914 (1/2 of exam) - 1915-present (1/3rd of exam)

**ABOUT THE REVIEW SECTION** This book begins with REA's concise

yet thorough 230-page review of U.S. history designed to acquaint you with the exam's scope of coverage. Our review covers these topics and historical time periods: - The Colonial Period (1500-1763) - The American Revolution (1763-1787) - The United States Constitution (1787-1789) - The New National (1789-1824) - Jacksonian Democracy and Westward Expansion (1824-1850) - Sectional Conflict and The Causes of the Civil War (1850-1860) - The Civil War and Reconstruction (1860-1877) - Industrialism, War, and the Progressive Era (1877-1912) - Wilson and World War I (1912-1920) - The Roaring Twenties and Economic Collapse (1920-1929) - The Great Depression and the New Deal (1929-1941) - World War II and the Post-War Era (1941-1960) - The New Frontier, Vietnam, and Social Upheaval (1960-1972) - Watergate, Carter, and the New Conservatism (1972-2001)

**SCORING THE EXAM** The multiple-choice section of the exam is scored by crediting each correct answer with one point and deducting one-fourth of a point for each incorrect answer. You will neither receive a credit nor suffer a deduction for unanswered questions. The free-response essays are graded by instructors and professors from across the country who come together each June for a week of non-stop AP essay grading. Each essay booklet is read and scored by several graders. Each grader provides a score for the individual essays. The DBQ is scored on a scale from 0 to 15, 0 being the lowest and 15 the highest. Each topic-based essay receives a score from 0 to 9. These scores are concealed

so that each grader is unaware of the previous graders' assessments. When the essays have been graded completely, the scores are averaged—one score for each essay—so that the free-response section generates three scores. The total weight of the free-response section is 50 percent of the total score. Your work in the multiple-choice section counts for the other 50 percent. Each year, grades fluctuate slightly because the grading scale is adjusted to take into account the performance of the total AP U.S. History test-taker population. When used with the corresponding chart, the scoring method we present here will strongly approximate the score you would receive if you were sitting for the actual AP U.S. History exam.

**SCORING THE MULTIPLE-CHOICE SECTION** For the multiple-choice section, use this formula to calculate your raw score:  $\text{Number right} - (\text{number wrong} \times 1/4) = \text{raw score}$

(round to the nearest whole number) **SCORING THE FREE-RESPONSE SECTION** For the free-response section, use this formula to calculate your raw score:  $\text{DBQ} + \text{Essay \#1} + \text{Essay \#2} + = \text{raw score}$  (round to the nearest whole number)

You may want to give your essays three different grades, such as a 13, 10, and an 8, and then calculate your score three ways: as if you did. Third graders are provided with instruction in the four key curriculum areas tested nationwide—reading, writing, language, and mathematics. The formats, reading passages, and questions are all modeled after national standardized and proficiency tests. Each book culminates with a practice test with an answer sheet for a real test-like experience. Also

perfect for multi-subject, summer review. In 1994 the U.S. Post Office developed a new test for all postal applicants, making the former tests and test taking books obsolete. In Dec. 2008, the FBI implemented a new DIOG, which described the procedures its employees must follow when conducting domestic investigations. The FBI implemented comprehensive training on the DIOG for approx. 20,000 FBI agents, analysts, and technicians. These employees were required to complete 16.5 hours of live classroom-style training. Moreover, after taking this training, the employees had to take and pass a written, computerized 51-question exam concerning the DIOG. Because of the concerns that there may have been widespread assistance given during the exam, in January 2010 this investigation was begun related to the DIOG exam. I was able to apply the ideas to the very next test I took in nursing school and have found it changed the way I view nursing school. It breaks it down to the various types of questions asked and how to approach them. It teaches you to brush aside the distracting and unnecessary aspects of the questions and teaches you to hone

in on what really is essential. It even helps you break down the dreaded 'select all that apply' questions. I highly recommend this book to any and all first-year nursing students. ” —Suzanne Chick Amazing. “ The FA Davis Test Success book is amazing. In lecture, we're told how to deal with "nursing" questions but it can still be puzzling. The test success book is wonderful and gives you examples and explanations, and then a practice test to use the test-taking tips in and gauge your success. ” —Nina, Durham Technical Community College Great Techniques To Know BEFORE Starting School. “ ...this has helped tremendously.
