Faked in China is a critical account of the cultural challenge faced by China following its accession to the World Trade Organization in 2001. It traces the interactions between nation branding and counterfeit culture, two manifestations of the globalizing Intellectual Property Rights (IPR) regime that give rise to competing visions for the nation. Nation branding is a state-sanctioned policy, captured by the slogan "From Made in China to Created in China," which aims to transform China from a manufacturer of foreign goods into a nation that creates its own IPR-eligible brands. Counterfeit culture is the transnational making, selling, and buying of unauthorized products. This cultural dilemma of the postsocialist state demonstrates the unequal relations of power that persist in contemporary globalization. The Mediterranean Sea was the most intensely contested body of water in World War II. As the maritime crossroads where Europe, Asia, and Africa meet, more major naval actions were fought in the Mediterranean than in the Atlantic or Pacific. Despite its importance, remarkably little has been written about the subject, and what exists is largely one-sided and outdated. This fresh study of the naval war in the Mediterranean analyzes the actions and performances of the five major navies British, Italian, French, German, and American

during the entire five-year campaign and objectively examines the national imperatives that drove each nation's maritime strategy. The Struggle for the Middle Sea sidesteps the myths that haunt this campaign, such as Great Britain enjoying a moral advantage over Italy, or the French being Germany's puppet, or the North African campaign significantly contributing to the eventual Allied victory. The book documents how the British Royal Navy, despite brilliant victories, was bled white in a campaign with questionable strategic goals; how Italy followed its own coherent naval strategy, much to the frustration of its German ally; and how the Marine Nationale was the strength of the independent French state and how it fought the Allies--and rejected the Axis--to maintain that independence. Most World War II histories tell the story of the Mediterranean War from a limited national point of view. Other works also end the story in 1943. Struggle for the Middle Sea provides a complete history of the entire campaign from all perspectives and covers Germany's largely unknown and remarkably successful struggle to employ sea power in the Mediterranean after the Italian armistice. The book's perspective and depth of detail is unmatched by other works, and its fresh viewpoints, supported by extensive research in Italian and French sources, are certain to provoke controversy. Its lessons about coastal warfare, the use of the sea, and the difficulty of gaining command of the sea in wartime provide insight into the role naval strategy played in World War II.

This magazine is a specialist motoring magazine, we have always catered to the enthusiast in you and brought an unadulterated view of the world of motoring. Sharp, sassy, clean, wittier and edgier than ever before. Drive it home today! This book is a complete guide to the Regia Marina, the navy with which Italy fought the Second World War. Starting with the historical background, it describes how the navy developed, how it was organised, the facilities that supported it, and the operations it conducted both before and after the armistice in 1943. It also details all its ships, with full technical particulars, plans and photos. Furthermore, there are chapters on special topics like camouflage; uniforms, decorations and insignia; and a 'who's who' of important naval personalities; and the reference value of the book is enhanced by a comprehensive bibliography and guide to sources. The illustration is a noteworthy feature of the book as the author's collection of naval photographs is one of the best in Italy. He is also a fine draughtsman, and his ship plans and colour illustrations are both detailed and accurate, adding a particular appeal for modelmakers. Of all the main combatant navies of this era, the Italian is probably the most poorly represented in English publications, so this comprehensive handbook will be especially

welcomed by the naval history community. International Retail Marketing combines a broad thematic overview of the key issues concerning international retail marketing with a series of incisive cases and examples of industry practice from markedly different sectors as fashion, food and healthcare. Contributions from Europe, North America and Asia show the dynamics affecting international retailing through a variety of case. Key discussion points are highlighted throughout the text, giving a hands-on focus. Quale storia potrebbe mai nascere tra una balena e una ballerina? E, se pure nascesse, in quali luoghi potrebbero mai incontrarsi e frequentarsi? L'autore rende possibile questo rapporto, raccontando la vicenda di Baleno. Il nostro protagonista desidera volare ed è alla ricerca di una grotta magica che nasconde il segreto per ottenere questo dono. Mentre insegue questo sogno, gli anni passano, Baleno cresce e scopre i primi sentimenti. Così incontra Bimba Fatina. Questa fiaba, variopinta come la tavolozza di un pittore, segue le vicende dei protagonisti con tenerezza e vivacità, mentre il racconto sembra rispondere al ritmo di onde morbide. Il rapporto tra i due personaggi diventa, nel frattempo, un soffuso canto d'amore. Since the beginning of the Royal Navy Submarine Service in 1901, 173 submarines have been lost and in many circumstances with their entire crew. War inevitably takes a heavy toll: in World War Two alone □ 341 officer and 2,801 ratings failed to return to harbour. The loss of personnel was roughly equivalent to the strength of the Submarine Arm at the outbreak of war. Between the first loss, A1 in 1904, and the last, Artemis in 1971, lie many stories in which cool nerve was very much in evidence and one can marvel at the escape of the only survivor of Perseus; and of the sinking of Olympus from which the few survivors had to swim seven miles before receiving help; and of Surgeon-Lieutenant Charles Rhodes who died that others may live. These and many other accounts of submarine escape are described within this history □ and whenever possible in the words of survivors or witnesses. Lucio Venturi studia lettere classiche a Bologna.
